

THE MANUFACTURING SUMMIT

Sept. 21-22, 2022

Rebuilding Supply Chains & Workforce through
Content, Collaboration and Contacts

REGISTRATION IS OPEN!

The Manufacturing Summit 2022

A Virtual Supply Chain Event for Advanced Manufacturing

Workforce | Content | Contacts | Contracts

Supplier registration is now open for the annual Virtual 2022 Manufacturing Summit (Sept 21-22), which will feature careers in manufacturing, workforce development, supply chain B2B meetings with OEMs, suppliers, and partners from the U.S. and Canada, and industry trends and developments.

Our theme will be ***“Rebuilding Supply Chains and Workforce through Content, Collaboration, and Contacts.”*** In addition to the supply chain matchmaker, and, given the worker shortages, we will have an added focus on workforce development with Vermont Technical College and the University of Vermont College of Engineering and Mathematical Sciences (UVM CEMS). The new 2-day format will allow for additional students interviews with employers on the B2B/2GO platform for **jobs** and **internships**.

Below, please find the OEMs and Primes confirmed to date for 2022 and results delivered in 2021.

- Find Your Future Workforce with UVM CEMS and Vermont Technical College
- Expansion of Aerospace Trade Corridor to Ontario aerospace and defense with the Ontario Aerospace Council (OAC)
- International SME supplier trade delegations from Québec, Ontario, and Canada

Testimonials

The two-day virtual program for this year's summit allows companies to connect with OEM buyers, suppliers, and workforce in a timely and cost-effective way. Expand your regional and international reach from the comfort and safety of your home or office, while scheduled B2B meetings eliminate the uncertainty of networking.

"The Virtual Manufacturing Summit exceeded our company's expectations in every way. In a challenging environment the summit enabled effortless collaboration that would have otherwise been impossible. We are excited to see where the opportunities and partnerships that were established will lead as well as continuing our participation in the future." – **Jack Germano**
VP Sales and Business Development G.S. Precision

"Once again, the Vermont Chamber assembled a plethora of manufactures that supply what DLA is looking for." – **Ryan Snyder, Defense Logistics Agency, Land and Maritime ASOC LNO, Agency Synchronization Operations Center**
